

# SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

## Astasol AN7002N

Date of creation	31. January 2017	Revision no.	
Date of revision		Version	1

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

- 1.1 Product identifier**  
Substance / mixture Astasol AN7002N  
Number mixture  
AN7002N
- 1.2 Relevant identified uses of the substance or mixture and uses advised against**  
Intended use of the mixture For professional use only
- The use descriptors**  
SU 24 Scientific research and development  
PC 21 Laboratory chemicals
- Not recommended use of the mixture The product should not be used in ways other than those referred in Section 1.
- 1.3 Details of the supplier of the safety data sheet**
- Manufacturer**  
Name or trade name Analytika, spol. s r.o.  
Address Ke Klíčovu 816/2a, Praha 9, 190 00  
Czech Republic  
Phone +420 286 589 616
- Competent person responsible for the safety data sheet**  
Name Analytika, spol. s r.o.
- 1.4 Emergency telephone number**  
National poisoning information centre UK, tel.: +44 844 892 0111.  
National Poisons Information Service Ireland, tel.: +353 1 809 2566.  
National poisoning information centre Scotland, tel.: 08454 242424 or 111.  
National Poisons Information Service Edinburgh, Royal Infirmary of Edinburgh, Little France Crescent, Edinburgh, EH16 4SA, tel.: +44 131 242 1383.

### SECTION 2: Hazards identification

- 2.1 Classification of the substance or mixture**  
**Classification of the mixture in accordance with Regulation (EC) No 1272/2008**  
The mixture is classified as dangerous.

Met. Corr. 1, H290  
Skin Corr. 1A, H314

Full text of all classifications and H-phrases is given in the section 16.

#### The most serious adverse physico-chemical effects

May be corrosive to metals.

#### The most serious adverse effects on human health and the environment

Causes severe skin burns and eye damage.

- 2.2 Label elements**  
**Hazard pictogram**

#### Signal word

Danger

#### Hazardous substances

nitric acid  
Aluminium nitrate

#### Standard hazardous statements

H290 May be corrosive to metals.  
H314 Causes severe skin burns and eye damage.

# SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

## Astasol AN7002N

Date of creation	31. January 2017	Revision no.	
Date of revision		Version	1

### Instructions for safe handling

P260	Do not breathe vapours/spray.
P280	Wear protective gloves/protective clothing/eye protection/face protection.
P301+P330+P331	IF SWALLOWED: rinse mouth. Do NOT induce vomiting.
P303+P361+P353	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310	Immediately call a POISON CENTER.

### 2.3 Other hazards

Substance does not meet the criteria for PBT or vPvB in accordance with Annex XIII of Regulation (EC) No. 1907/2006 (REACH) as amended.

## SECTION 3: Composition/information on ingredients

### 3.2 Mixtures

#### Chemical characterization

Mixture of substances and additives specified below.

**Mixture contains these hazardous substances and substances with the highest permissible concentration in the working environment**

Identification numbers	Name of the substance	Content in % weight	Classification according to Regulation (EC) No 1272/2008	Note.
Index: 007-004-00-1 CAS: 7697-37-2 EC: 231-714-2	nitric acid	5	Ox. Liq. 2, H272 Met. Corr. 1, H290 Skin Corr. 1A, H314	1, 2, 3
CAS: 13473-90-0 EC: 236-751-8	Aluminium nitrate	0,014	Ox. Liq. 2, H272 Eye Dam. 1, H318	

#### Notes

1 Note B: Some substances (acids, bases, etc.) are placed on the market in aqueous solutions at various concentrations and, therefore, these solutions require different classification and labelling since the hazards vary at different concentrations. In Part 3 entries with Note B have a general designation of the following type: 'nitric acid ... %'. In this case the supplier must state the percentage concentration of the solution on the label. Unless otherwise stated, it is assumed that the percentage concentration is calculated on a weight/weight basis.

2 Substance for which exposure limits of Community for working environment exist.

3 The substance with a specific concentration limit

Full text of all classifications and H-phrases is given in the section 16.

## SECTION 4: First aid measures

### 4.1 Description of first aid measures

Take care of your own safety. If any health problems are manifested or if in doubt, inform a doctor and show him information from this Safety Data Sheet.

#### Inhalation

Take care of your own safety, do not let the affected person walk! Terminate the exposure immediately; move the affected person to fresh air. Beware of the contaminated clothes. Depending on the situation, call the medical rescue service and ensure medical treatment considering the frequent need of further observation for at least 24 hours.

#### Skin contact

Remove contaminated clothes. Take off any rings, watches, bracelets before or during washing if worn in the contaminated areas of the skin. Depending on the situation, call the medical rescue service and always ensure medical treatment. Rinse contaminated areas with a flow of water, lukewarm at best, for 10-30 minutes; do not use any brush, soap or neutralizers.

#### Eye contact

Rinse eyes immediately with a flow of running water, open the eyelids (also using force if needed); remove contact lenses immediately if worn by the affected person. No neutralization should be performed in any case! Rinsing should be continued for 10-30 minutes from the inner to the outer eye corner to make sure that the other eye is not involved. Depending on the situation, call medical rescue service or ensure medical treatment as promptly as possible. Everyone must be referred for treatment even if affected only a little.

# SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

## Astasol AN7002N

Date of creation	31. January 2017	Revision no.	
Date of revision		Version	1

### Ingestion

DO NOT INDUCE VOMITING - there is danger of further damage to the gastrointestinal tract!!! Danger of esophageal and gastric perforation! RINSE THE MOUTH WITH WATER IMMEDIATELY AND LET THE PERSON DRINK 2-5 dl of cold water to reduce the heating effect of the corrosive substance. Consuming larger amounts of liquid is not advisable as it may induce vomiting and potential inhaling of the corrosive substances in the lungs. The affected person must not be forced to drink, particularly if already feeling pain in the mouth or throat. In this case let the affected person only rinse the mouth with water. DO NOT PROVIDE ACTIVATED CARBON! Depending on the situation, call medical rescue service or ensure medical treatment as promptly as possible.

### 4.2 Most important symptoms and effects, both acute and delayed

#### Inhalation

Inhaling vapours can cause corrosion of the breathing system. Not expected.

#### Skin contact

Causes severe skin burns.

#### Eye contact

Causes serious eye damage.

#### Ingestion

Corrosion of the digestion system can occur. Irritation, nausea.

### 4.3 Indication of any immediate medical attention and special treatment needed

Symptomatic treatment.

## SECTION 5: Firefighting measures

### 5.1 Extinguishing media

#### Suitable extinguishing media

Alcohol-resistant foam, carbon dioxide, powder, water spray jet, water mist.

#### Unsuitable extinguishing media

water - full jet

### 5.2 Special hazards arising from the substance or mixture

In the event of fire, carbon monoxide, carbon dioxide and other toxic gases may arise. Inhalation of hazardous degradation (pyrolysis) products may cause serious health damage.

### 5.3 Advice for firefighters

Use a self-contained breathing apparatus and full-body protective clothing. Closed containers with the product near the fire should be cooled with water. Do not allow run-off of contaminated fire extinguishing material to enter drains or surface and ground water.

## SECTION 6: Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

May be corrosive to metals. Use personal protective equipment for work. Follow the instructions in the Sections 7 and 8. Do not inhale aerosols.

### 6.2 Environmental precautions

Prevent contamination of the soil and entering surface or ground water.

### 6.3 Methods and material for containment and cleaning up

Spilled product should be covered with suitable (non-flammable) absorbing material (sand, diatomaceous earth, earth and other suitable absorption materials); to be contained in well closed containers and removed as per the Section 13. In the event of leakage of the substantial amount of the product, inform fire brigade and other competent bodies. After removal of the product, wash the contaminated site with plenty of water. Do not use solvents.

### 6.4 Reference to other sections

See the Section 7, 8 and 13.

# SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

## Astasol AN7002N

Date of creation 31. January 2017 Revision no.  
Date of revision Version 1

### SECTION 7: Handling and storage

#### 7.1 Precautions for safe handling

Prevent formation of gases and vapours in concentrations exceeding the occupational exposure limits. No smoking. Protect against direct sunlight. Do not inhale gases and vapours. Prevent contact with skin and eyes. Use personal protective equipment as per Section 8. Observe valid legal regulations on safety and health protection.

#### 7.2 Conditions for safe storage, including any incompatibilities

Store in tightly closed containers in cold, dry and well ventilated areas designated for this purpose.

Storage class 8B - Non-combustible corrosive substances  
Material of package HDPE (2), High-density (linear) polyethylene (Plastics)

HDPE

#### 7.3 Specific end use(s)

not available

### SECTION 8: Exposure controls/personal protection

#### 8.1 Control parameters

The mixture contains substances for which occupational exposure limits are set.

##### European Union

Name of the substance (component)	Type	Time of exposure	Value	Note	Source
nitric acid (CAS: 7697-37-2)	OEL	8 hours	- mg/m <sup>3</sup>		directive EU
	OEL	Short-term	2,6 mg/m <sup>3</sup>		
	OEL	Short-term	1 ppm		

#### 8.2 Exposure controls

Follow the usual measures intended for health protection at work and especially for good ventilation. This can be achieved only by local suction or efficient general ventilation. Do not eat, drink and smoke during work. Wash your hands thoroughly with water and soap after work and before breaks for a meal and rest.

##### Eye/face protection

Protective goggles or face shield (based on the nature of the work performed).

##### Skin protection

Hand protection: Protective gloves resistant to the product. When choosing appropriate thickness, material and permeability of the gloves, observe recommendations of their particular manufacturer. Observe other recommendations of the manufacturer. Other protection: protective workwear. Contaminated skin should be washed thoroughly.

##### Respiratory protection

Halfmask or a self-contained breathing apparatus as appropriate if exposure limit values of substances are exceeded or in a poorly ventilated environment.

##### Thermal hazard

Not available.

##### Environmental exposure controls

Observe usual measures for protection of the environment, see Section 6.2.

# SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

## Astasol AN7002N

Date of creation	31. January 2017	Revision no.	
Date of revision		Version	1

### SECTION 9: Physical and chemical properties

#### 9.1 Information on basic physical and chemical properties

Appearance	
Physical state	liquid at 20°C
color	data not available
Odour	data not available
Odour threshold	data not available
pH	1 (undiluted)
Melting point/freezing point	data not available
Initial boiling point and boiling range	data not available
Flash point	data not available
Evaporation rate	data not available
Flammability (solid, gas)	data not available
Upper/lower flammability or explosive limits	
flammability limits	data not available
explosive limits	data not available
Vapour pressure	data not available
Vapour density	data not available
Relative density	data not available
Solubility(ies)	
solubility in water	soluble
solubility in fats	data not available
Partition coefficient: n-octanol/water	data not available
Auto-ignition temperature	data not available
Decomposition temperature	data not available
Viscosity	data not available
Explosive properties	data not available
Oxidising properties	data not available

#### 9.2 Other information

Density	data not available
auto-ignition temperature	data not available

### SECTION 10: Stability and reactivity

#### 10.1 Reactivity

The mixture is non-flammable.

#### 10.2 Chemical stability

The product is stable under normal conditions.

#### 10.3 Possibility of hazardous reactions

The product is stable under normal conditions.

#### 10.4 Conditions to avoid

The product is stable and no degradation occurs under normal use. Protect against flames, sparks, overheating and against frost.

#### 10.5 Incompatible materials

Protect against strong acids, bases and oxidizing agents. Thereby a dangerous exothermic reaction will be prevented.

#### 10.6 Hazardous decomposition products

Not developed under normal uses. Dangerous outcomes such as carbon monoxide and carbon dioxide, heavy smoke and nitrogen oxides are formed at high temperature and in fire.

### SECTION 11: Toxicological information

#### 11.1 Information on toxicological effects

No toxicological data is available for the mixture.

# SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

## Astazol AN7002N

Date of creation 31. January 2017 Revision no.  
Date of revision Version 1

### Acute toxicity

Based on available data the classification criteria are not met.

Aluminium nitrate

Route of exposure	Parameter	Value	Time of exposure	Species	Sex
Oral	LD 50	3654 mg/kg		Rat	
Intraperitoneally	LD 50	281 mg/kg		Rat (Rattus norvegicus)	

nitric acid

Route of exposure	Parameter	Value	Time of exposure	Species	Sex
Inhalation	LC 50	260 mg/m <sup>3</sup>	30 min	Rat	

### Skin corrosion/irritation

Causes severe skin burns and eye damage.

Aluminium nitrate

Route of exposure	Result	Time of exposure	Species
Dermal	Slightly irritating		Rabbit

### Serious eye damage/irritation

Based on available data the classification criteria are not met.

Aluminium nitrate

Route of exposure	Result	Time of exposure	Species
Eye	Highly irritating		Rabbit

### Respiratory or skin sensitisation

Based on available data the classification criteria are not met.

Aluminium nitrate

Route of exposure	Result	Method	Time of exposure	Species	Sex
Dermal	Negative	OECD 406		Guinea-pig (Cavia aperea f. porcellus)	

### Germ cell mutagenicity

Based on available data the classification criteria are not met.

### Carcinogenicity

Based on available data the classification criteria are not met.

### Reproductive toxicity

Based on available data the classification criteria are not met.

nitric acid

	Parameter	Value	Time of exposure	Specific target organ	Result	Species	Sex
Evolution toxicity	TDLo	21150 mg/kg	21 day	Fetus	Fetotoxicity	Rat	

### Toxicity for specific target organ - single exposure

Based on available data the classification criteria are not met.

# SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) as amended

## Astasol AN7002N

Date of creation 31. January 2017 Revision no.  
Date of revision Version 1

### Toxicity for specific target organ - repeated exposure

Based on available data the classification criteria are not met.

### Aspiration hazard

Based on available data the classification criteria are not met.

## SECTION 12: Ecological information

### 12.1 Toxicity

#### Acute toxicity

Data for the mixture are not available.

nitric acid

Parameter	Value	Time of exposure	Species	Environment	Source
LD 50	100-10 mg/l	96 hour			medisalarm
LC 100	25-36 mg/l		Fishes		medisalarm
TLm	72 mg/l	96 hour	Fishes (Gambusia affinis)	Freshwater	
LC 100	36 mg/l		Fishes (Lepomis macrochirus)		
LC 50	33-100 mg/l	48 hour	Aquatic invertebrates (Ophryotrocha diadema)	Salt water	

### 12.2 Persistence and degradability

Data not available.

### 12.3 Bioaccumulative potential

Not available.

### 12.4 Mobility in soil

Not available.

### 12.5 Results of PBT and vPvB assessment

Product does not contain any substance meeting the criteria for PBT or vPvB in accordance with the Annex XIII of Regulation (EC) No 1907/2006 (REACH) as amended.

### 12.6 Other adverse effects

Not available.

## SECTION 13: Disposal considerations

### 13.1 Waste treatment methods

Hazard of environmental contamination; dispose of the waste in accordance with the local and/or national regulations. Proceed in accordance with valid regulations on waste disposal. Any unused product and contaminated packaging should be put in labelled containers for waste collection and submitted for disposal to a person authorised for waste removal (a specialized company) that is entitled for such activity. Do not empty unused product in drainage systems. The product must not be disposed of with municipal waste. Empty containers may be used at waste incinerators to produce energy or deposited in a dump with appropriate classification. Perfectly cleaned containers can be submitted for recycling.

#### Legislation of waste

Council Directive 75/442/EEC on waste, as amended. Decision 2000/532/EC establishing a list of wastes, as amended.

#### Code of type of waste

20 01 14 acids

#### Code of type of waste packaging

15 01 10 packaging containing residues of or contaminated by dangerous substances

Safety signs

8

### SECTION 15: Regulatory information

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of 18th December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing the European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No. 793/93 and Commission Regulation (EC) No. 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC, as amended. Regulation (EC) No. 1272/2008 of the European Parliament and of the Council of 16th December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No. 1907/2006, as amended. The Act No. 350/2011 Coll., on Chemical Substances and Chemical Preparations as amended (the Chemical Act).

#### 15.2 Chemical safety assessment

not available

### SECTION 16: Other information

#### A list of standard risk phrases used in the safety data sheet

H272	May intensify fire; oxidiser.
H290	May be corrosive to metals.
H314	Causes severe skin burns and eye damage.
H318	Causes serious eye damage.

#### Guidelines for safe handling used in the safety data sheet

P260	Do not breathe vapours/spray.
P280	Wear protective gloves/protective clothing/eye protection/face protection.
P301+P330+P331	IF SWALLOWED: rinse mouth. Do NOT induce vomiting.
P303+P361+P353	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310	Immediately call a POISON CENTER.

Date of revision		Version	1

### A list of additional standard phrases used in the safety data sheet

EUH 071 Corrosive to the respiratory tract.

### Other important information about human health protection

The product must not be - unless specifically approved by the manufacturer/importer - used for purposes other than as per the Section 1. The user is responsible for adherence to all related health protection regulations.

### Key to abbreviations and acronyms used in the safety data sheet

ADR	European agreement concerning the international carriage of dangerous goods by road
BCF	Bioconcentration Factor
CAS	Chemical Abstracts Service
CLP	Regulation (EC) No 1272/2008 on classification, labelling and packaging of substance and mixtures
DNEL	Derived no-effect level
EC50	Concentration of a substance when it is affected 50% of the population
EINECS	European Inventory of Existing Commercial Chemical Substances
Ems	Emergency plan
ES	Identification code for each substance listed in EINECS
EU	European Union
IATA	International Air Transport Association
IBC	International Code For The Construction And Equipment of Ships Carrying Dangerous Chemicals
IC50	Concentration causing 50 % blockade
ICAO	International Civil Aviation Organization
IMDG	International Maritime Dangerous Goods Transport
INCI	International Nomenclature of Cosmetic Ingredients
ISO	International Organization for Standardization
IUPAC	International Union of Pure and Applied Chemistry
LC50	Lethal concentration of a substance in which it can be expected death of 50% of the population
LD50	Lethal dose of a substance in which it can be expected death of 50% of the population
LOAEC	Lowest observed adverse effect concentration
LOAEL	Lowest observed adverse effect level
Log Kow	Octanol-water partition coefficient
MARPOL	International Convention for the Prevention of Pollution From Ships
MFAG	First Aid Manual
NOAEC	No observed adverse effect concentration
NOAEL	No observed adverse effect level
NOEC	No observed effect concentration
NOEL	No observed effect level
OEL	Occupational Exposure Limits
PBT	Persistent, Bioaccumulative and Toxic
PEL	Permissible Exposure Limit
PNEC	Predicted no-effect concentration
ppm	Parts per million
REACH	Registration, Evaluation, Authorisation and Restriction of chemicals (EP and Council Regulation (EC) No 1907/2006)
RID	Agreement on the transport of dangerous goods by rail
UN	Four-figure identification number of the substance or article taken from the UN Model Regulations
UVCB	Substances of unknown or variable composition, complex reaction products or biological materials
VOC	Volatile organic compounds
vPvB	Very Persistent and very Bioaccumulative
w/w	Weight by weight
Eye Dam.	Serious eye damage
Met. Corr.	Corrosive to metals
Ox. Liq.	Oxidising liquid
